Older Learners during transitions: Identifying and tackling barriers and Positive Interventions for Engaging Older Learners - Spanish Perspective

Life transitions are challenging because they force us to let go of the familiar and face the future with a feeling of vulnerability. Most life transitions begin with a string of losses: The loss of a role; person; place or sense of where you 'fit' in the world. TEAL (Transitions into Enterprise for Adult Learners) responds to these challenges which all partners (UK, Spain, Germany) face by providing adult learners with new pathways to re-engage with learning and improve their knowledge and competences to consider making a transition into enterprise e.g. from unemployment or redundancy.

Our first Workshop: "Identifying & tackling barriers: Older Learners during Transitions. Positive Interventions for Engaging Older Learners" will take place 13 December 2013 in Granada (Spain)
